The Leader in Portable Buildings

www.ClassicBuildingSales.com
Freeman Miller (my Dad), was building portable buildings ever since I was 12 years old. I remember coming home from school, grabbing a snack, and heading out to the shop to help Dad build storage buildings.

I greatly appreciate the tutoring my Dad gave me. He taught me how to build a quality product and always said, “measure twice, and cut once…” something I have never forgotten!

Kenneth Miller
Founder of Classic Buildings

We are blessed to have the Amish Heritage… “Quality Workmanship”

We're very thankful for the heritage we have been given, and we strive daily to serve our Lord Jesus Christ, provide for our family, and serve our customers the same way our parents did.

We don’t have any unsatisfied customers! If you are not thrilled with our quality product and the way your project was handled, we will either fix the problem or refund all your money. To guarantee this, I can always be reached at my mobile number, (573) 247-2617. That’s assurance!

“We build all sizes,” we like to tell our customers. Don’t ask us what we have… tell us what you need! Our standard buildings start at 8x8 feet and go all the way up to 30x40 feet, with over 20 other standard sizes in between. Approximately 70% of our buildings are manufactured and delivered as a complete unit to your backyard, while the other 30% are built directly on-site. Whatever your needs may be, we know how to make it happen!

What Our Customers Are Saying!

I just had to drop a note about my experience with your company. It’s so refreshing to work with a company that takes pride in its work and its reputation, and is in business for the right reasons. Make an honest buck…for a good honest product. My wife and I were extremely pleased with the purchase of our barn a few years ago at the home show. I would recommend anyone looking into a shed or barn to really consider your products. Way to go guys!

Brad Cashion

Don’t Ask Us What We Have… Tell Us What You Need

We offer many convenient ways to construct your building, in the manner that works best for your unique situation.

Our buildings are constructed in an assembly line construction process, which has been designed by our owner. This detailed process enables our employees to produce high quality work on every portable building we construct.

Your building is loaded onto state-of-the-art trucks and trailers that are hydraulically powered, for a professional delivery. Each truck comes equipped with a remote controlled “mule,” which allows us to move the building across your yard without even damaging the grass!

If you don’t want your building pre-assembled or moved, we can custom build it directly on-site!
Classic Buildings Are Built Better to Last Longer

Here’s why...

1. Strongest anti-warp door system in the industry...
2. #1 Premium lumber installed every 16 inches...
3. Exclusive drip-cap on all double doors...
4. 50-year caulk applied on all joints and countersunk nails...
5. 50-year termite-proof LP siding and MiraTEC trim with 25-year paint...
6. 7/16" SmartSide® siding installed to manufacturer’s specs...
7. Diamond tread-plate to protect the door’s threshold...
8. Interlocking top plates and door/window framing just like a house...
9. 4" x 6" skids with a 30-year warranty against termites and rot. Made to be buried...
10. Felt paper installed beneath shingles for a 30-year warranty...

Compare our engineered buildings to other sheds and CHOOSE FOR YOURSELF!

Lifetime Warranty with 10 Year Workmanship Warranty
Twice the Warranty of Most Buildings!

ENGINEERED TO RESIST 140 mph winds and 70 lbs per square foot of snow!

Dear Kenneth,

I plan to spend the day moving things from my crowded garage to that fine new shed, which will also serve as a playhouse for my three grandchildren. You are a “stand-up guy,” and it does my heart good to deal with a company and an individual who really stands behind their product, and backs up that promise with action.

Watch close, because the quality of this shed and my “cheerleading” will eventually get you other customers in the KC market. The quality of the display sheds on your store’s lot influenced me greatly to buy from Classic Buildings, when compared to other local companies. The personal service I received from John, and the excellent follow-up provided by Carolyn Miller cinched the deal.

My hat is off to all the personnel I have met at your company!

Dennis Falk

Dear Classic Buildings,

I just wanted to thank your company and the two gentlemen that came out to our place to install our Barn Shed.

They both worked so hard and completed the installation in one day!

My husband and I have worked with many contractors, and have never experienced service as good as your company.

P.S. Thanks for the cookies, they were wonderful!

Robin McKinnon

Dear Sirs,

I just finished putting in the replacement lock you kindly sent at no charge. As I was doing so, it gave me time to reflect on my experiences with your company.

From your help in selecting the right building for our needs, being so accommodating when we changed the color of the building, delivery and set up, and now replacing the lock; all aspects of our treatment have been first class. I appreciate being treated as if I were your only customer, allowing as much time as needed to reach a decision.

We are so pleased with our purchase. Thank you.

Russel J. Murray
